17-19 is the number of the building where the café is located, hence this name. **17-19** is a simple, small café, in a European style. The relaxed atmosphere makes one think that he or she is at home. This café is not well known, but it is for every one of all tastes. The reason why it is not so well known, is because that the café is located on Liteniy Prospect, and is not advertised with flashy lights or big signs.

Café 17-19 combines real home comfort and original designs together, to bring one into a relaxed mood instantly. The café is littered with shelves of books, which anyone can take and read while enjoying a cup of tea or coffee. Flowerpots, striped blankets on the couches and chairs, and soft drapes on the windows, make the atmosphere in the café welcoming and hospitable. The outside walls are covered with a variety of bright pictures. When entering the café, one should leave his or her coat on a clothes hanger, and shoes at the stand near the door. The clothes hanger and shoe stand are modeled after pieces of art. The reason why guests should leave their jackets and shoes at the door is to make the atmosphere feel like you are at home.

The café offers big hearty portions at affordable prices, while using only the freshest ingredients.
