In St. Petersburg, an observation deck with the height of about 400 meter will open

The observation tower will be the highest observation deck in the city. You will be able to see the city from a height of 378 meters.

The 378-meter high observation deck will be on the top floor "Lakhta center." Visitors will be able to get to the top by a fast elevator.

The observation deck will be the tallest in St. Petersburg. It is expected that the site will open in 2018.
